ANSWER

**MINISTER OF STATE IN THE MINISTRY OF HEAVY INDUSTRIES AND
PUBLIC ENTERPRISES (SHRI PON. RADHAKRISHNAN)**

(a): The term Higher HP tractors is ambiguous. In the Indian context, tractors above 50 HP are considered higher HP tractors. In this segment, over the past 5 Financial years, the domestic sales has increased from 29053 in 2008-09 to 67134 in 2011-12 before coming down to 31228 in 2013-14. The reduction in 2013-14 was attributed to the increase in tractor prices due to the new emission norms introduced, which impacted engines above 50 HP. Tractors above 50 HP, as a percentage of total industry was around 10 % in the past years, and has come down to around 5% in 2013-14.

(b): The data on production and sales in the past 5 years is annexed.

Tractor Industry has more than adequate capacity to meet all HP needs. Member companies of Tractor Manufacturers Association (TMA) are also in the process of enhancing their capacities for the future.

(c): Government of India has already facilitated Agriculture and Agriculture mechanization. Indian tractor industry has technology & adequate competency and they export to developed nations like USA & Europe.

Indian Tractor Industry is one of the largest tractor exporters in the world. We export tractors up to 100 HP. These tractors are available for domestic market also, when needed.
